A STATEMENT OF ADVERTISING PRINCIPLES

Advertising — aims to inform the consumer
to buy more intelligently.

Advertising — tells the truth, avoiding mis-
facts as well as possible deception through
implication or omission. It makes no claims which can
not be met in full and without further qualification. It
uses only testimonials of competent witnesses.

3. **Good Advertising** — conforms to the generally ac-
cepted standards of good taste. It seeks public accept-
ance on the basis of the merits of the product or service
advertised rather than by the disparagement of com-
peting goods. It tries to avoid practices that are offensive
or annoying.
4. **Good Advertising** — recognizes both its economic
responsibility to help reduce distribution costs and its
social responsibility in serving the public interest.

INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, (Publishers of the Morehead City-Beaufort Directory since 1958), present to subscribers and the general public, this, the 1961 edition of the Morehead City-Beaufort City Directory, which also includes Atlantic Beach and Rural Route Residents.

Confidence in the growth of Morehead City-Beaufort's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Morehead City-Beaufort to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the results of their labors will meet with the approval of every user, and that the Morehead City-Beaufort Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of Morehead City-Beaufort, arranged in alphabetical order under appropriate headings—a catalog of all the activities of Morehead City-Beaufort. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In progressive communities like Morehead City-Beaufort, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Morehead City-

Beaufort and Atlantic Beach, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Morehead City-Beaufort and vicinity.

The Out-Of-Town City Directory Library

Through the courtesy of the publishers of the Morehead City-Beaufort City Directory, a Directory Library is maintained in the offices of the Morehead City Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Morehead City is named for John Motley Morehead Governor of North Carolina, 1841-1845, who firmly believed that this location had the potentialities of becoming one of the great Atlantic seaports. Gov. Morehead purchased 600 acres of land at the terminal of the railroad he had been instrumental in establishing in 1855. The town laid off in home sites had its streets named for directors of the original Shepard's Point Land Company. The peninsula was formerly known as Shepard's Point. The town was chartered in 1858.

Morehead City's ocean port has the most complete facilities in the state and lies only 45 minutes from the sea lanes. The terminal is state owned and is one of the few state operated ports showing an individual profit. Morehead is bounded by the Newport River, Calico Creek and Bogue Sound and is 1 mile from the ocean and Atlantic Beach.

The city is stretched out on a three-mile-long peninsula which juts out into the Newport River and the Ocean Port Terminal.

On the water front is the finest Charter Fishing Fleet on the Atlantic Coast and world-famous sea-food restaurants. The Inland Water-way separates Morehead City and Atlantic Beach.

The Morehead City Country Club offers 18 of the finest holes for the occasional or serious golfer.

Morehead City Post Office

The Morehead City Municipal Building

Hotels, motels, tourist courts, trailer parks and a shopping center which is open six days a week offer diversification for the vacationist.

Although just one hundred years old Morehead City has developed into one of the most active and progressive towns in the State. Known through the early years as a popular summer resort with its wide expanse of oceanside beach and resort attractions, it has taken on of late years a progress of commercial development.

To a large extent this recent growth has come about as an outgrowth of a Port Terminal, conceived in the mind of the late John M. Morehead over one hundred years ago, offering advantages of ocean and inland water transportation so essential to commercial life.

The close proximity to the sea-lane of ocean commerce and travel, only five miles from sea-lane to port, through a channel of sufficient depth, allow the largest ocean-going craft to enter the harbor. With combined rail, highway and water shipping facilities, the location of Morehead City is ideal for industries served by such utilities.

Morehead City has grown from a small plot of land purchased and opened up by Mr. Morehead as a town in the fall of 1857. Annexation of adjoining sections through the years has more than doubled the original site.

Home building has kept pace with the town's expansion, from the small attractive home of the average family to those of large income. Added to the cost of the business and manufacturing structures, the average cost overall, over a period of eight years covers more than half a million dollars yearly. Development corporations, both within the city as well as nearby sections, announce an extensive program of building new homes to meet the steady demand of home-owners of all financial status.

Its midway location between the extreme north and the extreme south, gives the city and surrounding section a most equitable climate the year around. Ocean winds temper the heat of summer, the waters of the Gulf Stream a few miles off shore help to make the winters mild and of short duration.

No where along the Atlantic coast can the ocean beach, adjoining the city on the south, be excelled for the beauty of its sand dunes and shore vegetation, its safe bathing beach with no undertow.

History is written in the long stretch of Bogue Banks. Blackbeard the pirate is claimed to have visited Banks in his days of privateering. Some persons like to believe he hid much of his loot in the sands. Such is yet to be found, although many a searcher has spent hours digging for "pirate gold."

Upon the shores of the Banks has drifted the wreckage of boats and men of three wars, within a hundred years. The sound and outer ocean has given a livelihood to many through the years, either fishermen or whalers, from the early days of

the county's settlement to present day. No better fishing grounds for pleasure or profit can be found along the Atlantic coast than off the shores of Carteret County. There are seven ocean fishing piers.

Those seeking historic lore will be rewarded by a study of county history. Quakers played an important part in the early days of the county's settlement. From the outer world came settlers of various nationalities. Many came by ship through Old Topsail Inlet to land at Beauford. Others trekked their way along rough Indian trails from the colonies to the north. This mingling of personalities produced an heterogeneous group, out of which came the men and women who helped to establish the early settlements of the county.

Along with the varied commercial and economic life of the community the christian and educational opportunities have not been overlooked. Such meet the demands of all faiths, while the educational advantages and social and civic organizations, furnish an opportunity for study and community betterment.

The spirit of that early pioneer, John M. Morehead, still carries on, and his dream of a busy port and a great industrial city is being realized.

Golf Course

The Morehead City Country Club, just a few miles from the City limits, offers outdoor recreation for the Golf enthusiast every month of the year. The beautiful 18-hole course overlooks the tidal Newport River, its greens and rolling fairways wind around tall stands of stately pines which offer shade and also protection from occasional gusty breezes. A new Club House and swimming pool will soon be under construction. New homes are springing up rapidly in the Country Club vicinity but there are still a few ideal homesites available either on the waterfront or the highway.

This is truly a golfers' paradise, no snow or ice, few hot days and no long rainy season. Bring your golf clubs along and try it out.

Fort Macon

Located at the eastern end of Bogue Banks, overlooking the Beaufort (Topsail) Inlet, Fort Macon and the forts which preceded it, have guarded the Ports of Morehead City and Beaufort two centuries. The present Fort was built in 1826 and completed in 1834. It is an outstanding example of military architecture and a monument to the craftsmanship of the brick-masons of the 19th century.

Stone jetties, designed by Robert E. Lee then a young Lieutenant, can be plainly seen jutting out into the ocean and sound where they have held back erosion since about 1842. Little did Lee dream that thousands of tourists from all over the U. S. would fish from these solid barriers every year.

Taken over by the Confederate State at the beginning of the Civil War, Fort Macon was recaptured by Federal troops

under Gen. J. G. Parke in 1862. The battle-scars still show on the masonry, in spite of attempts to hide them with patchwork.

About a mile west is the Fort Macon State Park Beach, a smooth white stretch of gleaming sand, surrounded by majestic dunes. The State provides a large parking area for cars, public bath houses, lifeguard service, also picnic tables and a large shelter for use in case of rain.

ATLANTIC BEACH

Atlantic Beach, an incorporated town, is just across the bridge from Morehead City. This is the most developed spot on the twenty-two miles of matchless, east-west, beach on Bogue Banks. Even though this is one of the safest beaches on the coast ample and efficient lifeguard service is provided. The Marina's, launching ramps, bowling, pool, miniature golf, kiddie rides and just about every kind of amusements line the boardwalk as it approaches. Hotels, motels, lodges, restaurants and snack bars are convenient to the beach and the causeway. Seven ocean fishing piers near the beach make fishing most convenient. On the Causeway there are two fishing piers which extend out over Bogue Sound for those who prefer fishing in the calmer waters. The beaches on the sound offer still water sports to the children, skiing to those who like the thrill and boating or sailing to all who like the water.

A branch bar and supermarket add to the convenience of the modern Beach shopping center.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them, to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individual engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

"r"—RESIDENT

"h"—HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

The power of light to sell goods has been demonstrated time and time again in stores throughout the country. People will buy what they can see well . . . they will buy more freely in the atmosphere of a modernly lighted store . . . they will be more satisfied with their purchases. Light also can be used to call customers' attention to certain goods through flood lighting or spotlighting, and its applications to the display of merchandise are almost endless.

The proper use of light is a powerful sales tool . . . a sales tool that you can use with profit in your business.

Typical Questions

Your City Directory
Will Answer

ABOUT AN INDIVIDUAL

How does he spell his name?
 What is his middle initial?
 Is he married? What is his wife's name?
 Where does he live?
 Does he own his home or rent?
 Has he a telephone?
 Who are his neighbors?
 What does he do for a living?
 Where does he work?
 Is he the "head of the house" or a resident?
 Does he own a business? Is he a member or officer?
 Who else is in the same business or profession?
 Is the woman single, married or a widow?

ABOUT YOUR CITY

What is the city's history?
 What are the latest population figures?
 What is the latest statistical and general civic information?
 What are the leading industries and activities of the city?
 What are the names and locations of the schools?
 What are the churches and where located?
 Who are the pastors of the churches?
 What are the locations of the hospitals, homes and asylums?

ABOUT A LOCALITY

How is the quickest way to get there?
 Who lives at a given address?
 Is there a telephone at the address or nearby?
 What is the character of the neighborhood?
 Is it a "home-owners" section?
 What is the nearest street corner?
 What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
 Where are the public and office buildings?
 If it is a business location, what business?
 If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN

What is the nature of the business?
 What is the correct name and address?
 Is it a Proprietorship, Partnership or Corporation?
 Who are the partners, owners, or officers?
 Who else in same or similar lines?

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

Morehead City Park 6-3216**HILL'S****MOREHEAD CITY-BEAUFORT**Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide**1961****INCLUDING ATLANTIC BEACH**

Copyright, 1961, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

Vital Information at Your Fingertips—The City Directory

"A Real Necessity in Every Office"—The City Directory

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5

A *Statistical and Historical Story* of your city; plus miscellaneous other information.

Power of Advertising

THE CITY DIRECTORY is the power that **generates** information for the buyer that he may know who deals in the product he wishes to purchase. **If** your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must **apply this** to your own particular business.

ADVERTISING is the power of an idea multiplied.
